

BW	ENVIRONMENTAL POLICY	
Document Reference: BW EM 01-001	Issue Number: 1	Issue Date: 08.06.11

This Policy applies to all processes of J.E. Churchill (Plant) Limited trading as Bell Waste Control, Scunthorpe, which are likely to have an impact on the environment.

Bell Waste Control is committed to minimising the effect of its processes on the environment.

It is our policy to:-

- Comply with all relevant environmental legislation.
- Identify the environmental aspects associated with our activities and establish a mechanism to reduce and control significant aspects.
- Review the environmental risks associated with our processes and implement systems to ensure that these risks are minimised in order to prevent pollution.
- Implement a system of inspection, testing and maintenance to ensure that the environmental risks identified continue to be controlled.
- Commit to monitor our impacts on the environment through a documented emissions monitoring regime.
- Ensure that staff are trained to be aware of the environmental risks identified and their roles in ensuring that these risks are minimised.
- Audit and review environmental performance.
